

Molecular Therapeutics of Cancer Research Conference

Program

Sunday, July 18

Reception Dinner and Opening Keynote Talks

- Jim Broach, Chair

D. Gary Gilliland | René Bernards

Monday, July 19

Predictive Biomarkers and Patient Selection-How Deep Do We Go?

- Bраниimir I. Sikic, Chair

Laura Esserman | Keith Baggerly | Tim Yeatman

Beyond the Numbers: Circulating Tumor Cells

- Caroline Dive, Chair

Howard I. Scher | Stefanie S. Jeffrey

Tumor Metabolism

- Mary-Ann Bjornsti, Chair

Chi Dang | John Hartman IV

Tuesday, July 20

Harnessing the Immune System to Treat Solid Tumors

- Olja Finn, Chair

Rachel Humphrey | George C. Prendergast | Drew Pardoll

Targeting Cancer Redox Nodes

- Sara Courtneidge, Chair

Alan Diehl | Gregg Semenza

Wednesday, July 21

Modern Animal Models of Cancer

- Phillip Dennis, Chair

H.H. Fiebig | Charles Keller

Proapoptotic Pathways-Is Targeting Death Dead?

- John A. Hickman, Chair

Ingrid Wertz | Dale Porter | Steve Elmore

Princeton University campus

Princeton, NJ

July 18th – 21th, 2010

Proudly co-sponsored by the *Cancer Molecular Therapeutics Research Association* and
The Department of Molecular Biology at Princeton University
